DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 30-32, drawn to a nucleic acid molecule, vector, and a transformed mammalian host cell comprising SEQ ID NO: 20.

Group II, claim(s) 33, drawn to a polypeptide comprising SEQ ID NO: 27.

Group III, claim(s) 34, drawn to an oligonucleotide comprising the SEQ ID NO: 11.

Group IV, claim(s) 35, drawn to an oligonucleotide comprising the SEQ ID NO: 12.

Group V, claim(s) 36, drawn to an oligonucleotide comprising the SEQ ID NO: 30 or SEQ ID NO: 31.

Group VI, claim(s) 37, drawn to a polypeptide encoded by the oligonucleotide in claim 36.

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is drawn to SEQ ID NO: 20, Group II is drawn to SEQ ID NO: 27, Group III is drawn to SEQ ID NO: 11, Group IV is drawn to SEQ ID NO: 12, Group V and VI are drawn to SEQ ID NO: 30 or 31. Each group is drawn to a separate and unrelated SEQ ID and therefore, they are considered separate inventions. Additionally, some of the groups are drawn to either an

Art Unit: 1637

oligonucleotide (DNA) or a polypeptide (protein), as in groups V and VI. DNA and protein have completely different structures, and functions. They are considered different inventions and therefore, restriction is proper.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Molly E. Baughman whose telephone number is 571-272-4434. The examiner can normally be reached on Monday-Friday 8-5pm.
